London, England

OVERVIEW

Full-Stack Developer: 9 months startup + 2 years self-study. Strong React & Front-End focus. Great communication skills. Seeking collaborative Front-End/Back-End/Full-Stack roles.

WORK EXPERIENCE

iRealty - Junior Front-End Developer

APRIL - DEC 2025, LONDON UK

- Feature Engineering: Built property filtering, comparison tools, and multilingual support (Catalan/French) to enhance buyer engagement.
- Mobile Strategy: Developed React Native features and converted the CRM to a mobile-responsive design, increasing cross-device usability.
- UI Optimisation: Created reusable React components and standardised animations, reducing code duplication and improving UI consistency.
- Product Ownership: Independently built a Customer Support Panel to accelerate user issue resolution, with increased customer engagement
- Infrastructure: Managed state with Redux and integrated REST APIs within an AWS production environment.
- AI Tool Usage: Utilised tools to reduce development speed

Background: Entrepreneurship, Marketing & Tech Sales. More on LinkedIn.
