### OVERVIEW

Junior Full-Stack Developer: 9 months startup + 2 years self-study. Strong React focus and great communication skills. Seeking collaborative Front-End/Back-End/Full-Stack roles.

### WORK EXPERIENCE

 iRealty - Junior Front-End Developer

APRIL - DEC 2025, LONDON UK

- Feature Engineering: Built property filtering, comparison tools, and multilingual support (Catalan/French) to enhance buyer engagement.
- Mobile Strategy: Developed React Native features and converted the CRM to a mobile-responsive design, increasing cross-device usability.
- UI Optimisation: Created reusable React components and standardised animations, reducing code duplication and improving UI consistency.
- Product Ownership: Independently built a Customer Support Panel to accelerate user issue resolution, with increased customer engagement
- Infrastructure: Managed state with Redux and integrated REST APIs within an AWS production environment.
- AI Tool Usage: Utilised tools to reduce development speed

Background: Entrepreneurship, Marketing & Tech Sales. [More on LinkedIn.](#)

### AI UTILISATION

AI Agents

Prompts engineering

AI code editor

### SOFTWARE LANGUAGES

JavaScript

TypeScript

Python

C#

HTML

CSS

SCSS

### FRAMEWORKS & LIBRARIES

Node.js

Express.js

React

React-Native

Redux

Tailwind

Unity

### BACK-END, API & DATABASES

REST APIs

Authentication

OAuth 2.0

Middleware

SQL

PostgreSQL

SQLite

Docker

### TOOLS & WORKFLOW

Git

Command Line

Agile Development

Figma

Raspberry Pi

### LANGUAGE

 English (Fluent)

### EDUCATION

BSC (hons) Quantity Surveying  
Nottingham Trent University
